OUR FLAVORS

There is something about Earth data

We can't get enough

Xentity is the only IT consulting firm that puts the data program first.

We do this by providing data programs strategy, design, and production services that put the desire of knowledge-driven decisions and management first. Xentity focuses our solutions and approaches on Open Data, Geospatial Data, Big Data, and IoT/Remote Sensing large data programs who want to either become more efficient, transform business, and integrate innovation in an era of large technology-first, cost center investment approaches. Since 2001, Xentity has provided over 100 engagements and over 45 data programs in the last 3 years alone across Federal, State, Local, Education, and Commercial Clients.

118 Clients

78 Staff

29 Locations

228 Task Orders

Data Program Services

STRATEGY & CONSULTING

- Chief Data Office
- Conceptual Modeling
- Program Architecture
- Outreach Services

PRODUCTION & OPERATIONS

- Data Production
- Data Operations
- System Operations
- CIO Information Management

Data Solution Services

DESIGN & ANALYSIS

- Solution Architecture
- Solution Design
- Solution Analysis
- Transition Planning

SOLUTION DEVELOPMENT

- Data Applications Development
- Data Products Development
- Data Platform Development
- Rapid Proof of Concept

Top Solutions

Executives Sponsors / Champions

1. Data-Driven Transformation Roadmap
2. Outsource CDO/Chief Architect
3. Data Integration Operation Concepts
4. Platform Alternative Analysis

Data Program Directors

1. Data Integration Platform Architecture
2. Geospatial Delivery Solutions
3. Discovery, Geospatial & App Prototypes
4. CIO Information Management Services (EA, Records, FOIA)

Data Operation Centers

1. Aggregation & Data Pipelines/ETL
2. Dirty Data Migrations
3. Open Data Administration
4. Geospatial Data Operations

Clients Success Approach

Our clients succeed because of our collaborative approaches and dedicated talent trained and passionate about solving data problems. Our clients thank us for our smart dedicated talent, quality, agile, iterative deliverable value and quality management. Clients appreciate our pragmatism for knowing when to balance achieving efficiencies while introducing our native external curiosity and capability to introduce the appropriate level of data program strategy and transformational design through. We believe our superpower is our approaches addressing the sociotechnical culture, challenges, and nature of data program needs. Meaning, understanding the people, process, policy first which will ultimately drive the technology, solutions, and operations.

Our Client Focus

Client Types

- Large Data Programs
- Government Earth Agencies
- Prime System Integrators
- Startup or New Programs
- CIO Executives (CIO, CDO, GIO)

Data Types

- Geospatial / GIS
- Big Data
- Open Data
- Remote Sensing/IoT

Industries

- Natural Resource Management
- Transportation/Travel
- Emergency/Hazards
- Science
- Energy
- Health
- CIO Services

Active Contract Vehicles
