

Xentivity is the only tech integrator firm that puts the data program first.

Top Data Solutions:

- Automate Feeds to AI Training
- Big, Fast, Geo Data Integration for Critical Decision Support
- Reduce Data Subscriptions
- End-to-End Enterprise or Open Datasets
- Enterprise Data to Knowledge Platforms

Data Program Services

STRATEGY / BLUEPRINT

- Chief Data Office Advisors
- Data-to-AI Investment Analysis
- Program Architecture
- Data Industry SMEs

Data Solution Services

DESIGN / LAB

- Solution Architecture
- Solution Design
- Solution Analysis
- Transition Planning

Get started with a popular JumpStart package

- Define your Data Program Roadmap
- Ideate/Prioritize your Innovations
- Pilot new data flows or pipelines
- Rapid data app minimum viable product (MVP);
- Conduct data technology due diligence or capability evaluations.

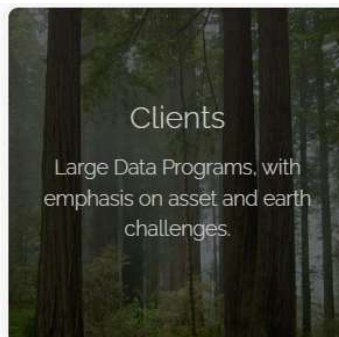

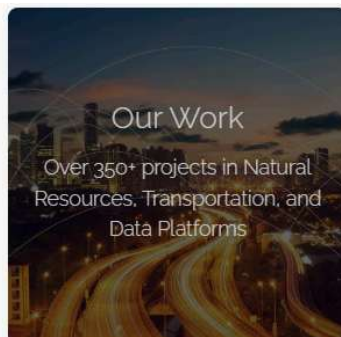

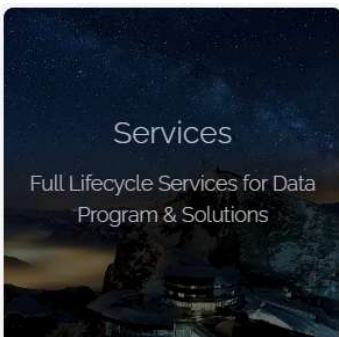

PRODUCTION / OPERATIONS

- Data Production
- Data Operations
- System Operations
- Authoritative Dataset Creation

DEVELOPMENT

- Data Applications Development
- Data Products Development
- Data Platform Development
- [JumpStart](#) Proof of Concept Labs

Xentity is a leader in Enterprise, National, and State Transformation Data Programs:

Geospatial

- Leader in National Geospatial Program Transformation
- Trusted provider for National Geospatial and Data Services for U.S. Land Management
- Largest U.S. Geospatial Platform Services provider

Open

- Supported earliest Chief Data Offices in the US (including White House to State DOTs).
- Largest U.S. Open Data Program Services
- National Award-Winning State Open Data

Big & IoT

- Largest transportation and infrastructure data analytical services
- Large Video and Real-Time Infrastructure Data Platforms
- Data Center to Platform Cloud Migrations

Voice & Language

- NoCode Voice Integration iPaaS platforms with ChatBots since 2018
- Multiple AI contracts creating eDiscovery, transcription, Geo LLM/RAG and Real-Time Integration

Data Subject Matter Expertise

- Land & Environment
- Forest & Timber
- Energy & Utilities
- Wildland Fire
- Physical Assets
- Earth Science
- Health
- Data Management

We design, develop, and integrate data ready solutions for knowledge use

- **Descriptive:** A range of data aggregation solutions explains "What happened?"
- **Diagnostic and Directive:** Information and Knowledge solutions joins data to answer "Why did it happen?" and "What is or will be happening?"
- **Prescriptive:** Wisdom AI solutions provide recommended options "What should we do?"

Contract Vehicles

- [GSA Contract # GS-00F-0038Y](#) (541611, 54151S, 541370GEO, 541370GIS)
- Multiple BPAs/IDIQs (DOI, USGS, USFS, LMIR, BTS, FHWA, USACE, Colorado, NASPO Cloud, more..)
- +Sole Simplified Acquisitions – up to \$350,000, 1 year
